

The 6-Month Planner

Your free companion to How to Pass the 11 Plus, from Pip 11 Plus

How to use it

Print the weekly sheet on the next page (one copy per week of your plan). Each weekday, log the short skill practice your child did, the minutes, and tick it off. At the weekend do the longer focus task, then spend two minutes on the review. Keep sessions short and finishable. Consistency beats cramming every time.

The plan at a glance

Month	Focus	Daily	Weekend goal
6	Assess and plan	10 to 15 min	Diagnose, set targets
5	Foundations: English and maths	15 to 20 min	Reading and times tables
4	Verbal and non-verbal reasoning	20 min	Learn the question types
3	Vocabulary, comprehension and writing	20 min	One piece of writing
2	Exam technique and first mocks	20 to 25 min	First timed mock
1	Full mocks and final polish	25 to 30 min	One full mock

Confirm the exam first. The mix of subjects, the board and the dates are set by each school or consortium and change, so check the school's or local authority's own page before you plan. The matching guide, How to Pass the 11 Plus, walks you through every step.
